RAIL-ROAD STOVE!

IN offering this truly elegant and durable new Stove to the public we feel confident we are offering as good a Stove as has ever been introduced into this market. We do not claim perfection for it, but we are confident it has no superior in this or any other market, either in durability of material beauty of design, economy in fuel, or convenience in construction. The Castings are smooth and heavy and are all warranted. The conveniences for Boiling and Baking are extensive, and for Heating it surpasses any thing we have ever seen,—carrying off all the smoke and steam.

We manufacture them in this city, and can furnish any pieces at any time, thereby saving the time and expense of procuring them from abroad.

Please call and examine them before purchasing

BANGOR AIR-TIGHT

COOKING STOVE!

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers' Messrs. Easton & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c, are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

467 *Washington Street*, 467,

BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs CAROLINE D. FOSTER, who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 416 opposite to the subscriber's residence 467, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. Abdominal Supports of five or six different kinds, and such as Hull's, Chapin's Spinal, Cutter's, Fitch's, Ingall's, &c, &c.

Ladies waited upon by Mrs. Caroline D. Foster at the above place.

The following certificate from Dr John C Warren of Boston, was given 16 years since, but will last forever:

BOSTON, January 7, 1835.

Having occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster, to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles

JOHN C WARREN, M D, Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary:

The undersigned having occasion to employ Mr J Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes,) any other manufacturer of the article

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J C Warren, are a sufficient guarantee for all who may favor Mr F, that his interests will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation. NEW CUSTOM HOUSE.

COMMISSIONERS' OFFICE, Bangor, Maine, Nov 16th, 1852.

IN conformity with instructions from the Secretary of the Treasury, proposals will be received at this office, for the construction of the new Custom House at Bangor, according to plans and specifications prepared by A B Young, Esq, Supervising Architect, until twelve o'clock on the 17th day of January 1853. Said proposals to contain offers for the entire work, and also separately for each part, the Department reserving the right to contract either way, as it may seem desirable—The Department also reserve the right to accept the bid or bids which, under all the circumstances shall appear most favorable to the interests of the Government, or of not contracting at all in case the proposals, together with the incidental expenses attending the construction of the building shall exceed the appropriations at its disposal. Seventy five per cent of the amount of work done and materials furnished, according to the contract prices said amount to be ascertained by the estimate of the Commissioners, will be paid every thirty days, the twenty-five per cent to be retained until the completion of the building, and its acceptance by the Government. Every proposal must be accompanied by a written guaranty, signed by two responsible persons, to the effect that they undertake that the party or parties making it, will if his or their offer be accepted enter into a contract and bond, with sufficient sureties, in the sum of $15 000 for the faithful execution of the work, and no offer will be considered unless accompanied by such guaranty.

Plans and specifications of the building can be seen at the office of the Commissioners, and also blank forms for the bids.

The proposals will be opened by the Commissioners at twelve o'clock on the day succeeding the expiration of the time for receiving them in presence of the bidders, if they or any of them shall be present.

O Hopeful Men!

BY WILLIAM ORLAND BOURNE.

Look forth anew, O Hopeful Men!
Not ever shall defeat be yours!
The future shall give might again,
And fling world-wild the massive doors;
Imprisoned by a gloomy Doubt,
Yet Hope illumes the walls within,
And not long hence the victor's shout
Shall well declare who nobly win.

Cheer up anew, O Hopeful Men!
Truth hath the stubborn lie to meet,
Which, though oft buried, springs again
In serpent forms around your feet;
Cheer up! cheer up! the strongest foe
Submissive to the Truth shall yield,
And to the nether depths shall go
To leave unstained the glorious field

Strike on anew, O Hopeful Men!
Ye who in Earnest love the right!
Ye have not lost your honor—then'
Strike on in Faith's undoubting Might;
The victors riot in excess,
And riot shall give place to sleep,
Then strike, and Heaven shall surely bless,
The valiant who their watch-vows keep.

Gird on anew, O Hopeful Men!
The armor is unsullied still!
The blade is trusty now, as when
We thought to work Progression's will;
Not to the Baal bow the knee!
Not for the Moloch curse the sod!
Souls that have passed the fire are free
To make their purer vows to God!

Raise up anew, O Hopeful Men!
Ye have not fallen, but *they* fled!
Push to the dark and guilty den
While strange Dishonor marks their tread;
The victors are not they who cry
Peals through the vault with thunder-tone,
But 'tis the Truth that shall not die,
And they who love the Truth alone.

Take heart anew, O Hopeful Men!
We have now learned the battle-ground!
Our standard is our own, again—
There to the last be ever found!
The Future in starlory beams
With bright truth the prophets saw,
When the New Earth shall bathe in streams
Of bliss, through Heaven's eternal law!

OLD APPLE TREE. There is a bearing apple tree in Connecticut, alive and flourishing, at the advanced age of two hundred and fourteen years. It is of the English Pearmain variety, and was imported in 1638, by Gov. George Wylley, and bore good fruit this season, on the "Charter Oak Place" now owned by Hon. T. W Storrs, Hartford. Some of the fruit of this venerable tree was presented to the Connecticut Horticultural Society in October last.

For more than two centuries have the people been blessed with the fruit of Gov. Wylley's regard for the welfare of men who should "come after him." Every man should set out fruit and shade trees, so long as he has the physical power to do so, that "future generations may rise up and call him blessed."—Vermont State Journal.

GEN. SCOTT. Col. Gorman in a recent speech in the House, to show with what complacency Gen. Scott looks upon his defeat, referred to a recent conversation he had with the old hero—"I asked him," said Gorman, "why he did not come down and let us see him."

The General replied—"I have not been out and have been engaged in official business, but I should be glad to see any of my friends. I was invited not long since to visit New York to attend the funeral of the Duke of Wellington, but I declined, giving as a reason that I had buried myself two weeks, and it would not look well to see a dead man walking in a funeral procession. [Laughter]

THE PACIFIC RAILROAD. We learn, says the *Philadelphia Sun*, from Washington, that the statement lately made to the effect that Hon. R. J. Walker intended submitting a proposition from a Company to Congress for the construction of the great Railroad to the Pacific Ocean, is entirely erroneous. Mr. Walker himself is mentioned as the authority for this denial; and it is added that he has always maintained that this road should be made by Congress itself, on the best National route, through the instrumentality of the public lands, leaving the road toll free for freight, or at rates lower than by any other route, so as thus to enable the United States to command the commerce of the world.

A fire was discovered by a school mistress in one of the primary Schools of New York, on Monday in one of the chimneys, and she had the presence of mind to step in front of the fire, thus concealing it from the children, and dismissed them, without creating any fear or suspicion in their minds. She then passed word privately to the other teachers in the building, and all the children, some two thousand, were sent from the building before the alarm was given. The coolness of the young lady under the circumstances, is highly commend

Letters Æsthetic, Social and Moral. No. III.

LIVERPOOL, ENGLAND.

You will notice, that in my wanderings I endeavor to keep an account, not only of places and things and of the outward men, but of *mind*.—And in saying this, I do not mean to exclude my own mind. I have already referred to the powerful effect upon my feelings, produced by a view of the ocean. And I spoke of this experience as throwing some light, as it seemed to me, on the doctrine of æsthetic emotions. At another time, in the course of our voyage across the Atlantic, I was personally the subject of some mental experiences, which illustrated in a remarkable manner the operations of the human mind in another respect, namely, the workings of the associating principle. To detail them distinctly would require a letter of some length; but you shall have them at some future time. I mark to give an account of them now, through fear of forgetting or omitting some incidents, which have given variety and interest to our voyage.

I have already referred to the fact, that we had on board, the American Ambassador to England, Mr. Ingersoll of Philadelphia. I had formed a slight acquaintance with this truly excellent and distinguished man many years ago, and was happy to renew it at this time. Every one found him easy of access, when his health permitted him to be about the ship; and the day before our arrival in Liverpool, being asked upon for that purpose in an appropriate manner, he made a chaste and graceful address in the presence of the passengers and others, which was characterized by kind and patriotic sentiments.

There is great significancy in the intercourse of nations at the present time. It not only indicates the progress of social and international humanity, but is also an index of the intellectual character and of the political morality and honor of particular nations. And; I do not doubt that the American government, in assigning this important embassy to Mr. Ingersoll, has consulted its reputation and honor, as well as its interests. The new American Ambassador to the Court of St. James is not a mere political or party man; but a scholar in a high and commendable sense of that term,—a man of wide information and cultivated literary taste. Nothing will be likely to come from this pen, which will discredit the high place which is assigned to the diplomatic papers of America.

Mr. Ingersoll was well received in Liverpool, but being met there, even before leaving the Arctic, by letters from Mr. Lawrence, his predecessor in the important office to which he had been appointed, he proceeded almost immediately to London.

Mr. Lawrence leaves this country with the respect of Englishmen, and with the respect and gratitude of American citizens. Nothing can be more unlike than these two ambassadors. The personal appearance of Mr. Ingersoll, though entirely good, is not of such a marked kind as to attract attention, by distinguishing him, either physically or in dress, from the common mass of men. He is modest, and rather retiring in his manners; and everything about him indicates the plainest republican citizen; so much so that I am inclined to think his great merit must be sought before it is known. He certainly will never proclaim it himself.

Mr. Lawrence is differently constituted in all respects. He is not a man of a public or liberal education; and in matters of literature, of taste, and in the knowledge of civil and political history, must probably yield in place to his accomplished successor. Mr. Lawrence, however, is a man of great natural intellect, and of thorough practical knowledge on a wide variety of subjects. He is a man, noble and graceful in his person; but his easy eloquence and generous heart relieves it from the dignity of distance.—Mr Lawrence has sometimes been characterized as aristocratic, and if by aristocracy is meant *wealth*, undoubtedly it must be admitted that he is to be reckoned in the category of the rich; but his wealth has placed the dollars in his hand for the poor man's benefit; and no man, whether rich or poor, ever goes from his presence, without feeling that he has a sympathetic and republican heart.

On our arrival at Liverpool three topics seemed at that moment to be uppermost in the public mind, (in addition to the anomalous and amazing movements in France, which will require some notice at the proper time,) namely, the death and funeral obsequies, not yet determined upon, of the Duke of Wellington, the emigration to Australia, and the disclosures, contained in that remarkable advent in American literature, entitled Uncle Tom's Cabin. Expecting to be present at the opening of Parliament, and to witness the funeral solemnities, which a grateful nation proposes to enact in honor of a name, which stands prominent and perhaps first in British military history, I shall defer what I have to say upon this remarkable man to some future occasion. The vast emigration to Australia, which seems to be chiefly of Englishmen, at first strikes one as merely a commercial incident, a new development of the courses of trade and of the intercourse of men and nations; but to the eye of the reflecting and philosophical observer, it carries with it the seeds of empires, and new and important destinies of the human race. The vast countries in that part of the world are destined to be occupied by the Anglo-Saxon race; carrying with them intelligence and the arts, the Protestant religion, and the indomitable spirit of independence. At such a distance they cannot remain long dependant upon a predominant power, but will set up for themselves, and fulfil the destiny which Providence has allotted them.

You will perhaps be surprised to hear me intimate, that the work of Mrs. Stowe, interesting and valuable as it undoubtedly is, is one of the things which at the present time occupies to a considerable extent the attention of the British nation. It is not often that a literary work, whatever its merit, produces what may be called a national sensation. But such is the fact in the present case. Partly owing to the nature of the subject, and partly to the intrinsic merits of the work, it is universally read, and it has been asserted on what seemed to be good authority, that the popular writings of Walter Scott and of Dickens have had at no time a circulation so general and rapid as Uncle Tom's Cabin. It is published by a multitude of booksellers in all forms, and, with all sorts and degrees of decorations and prices, and is found in all book-stalls and book-sellers' shops.

The effect of this work upon the English mind seems to be favorable. I do not know that it increases the Englishman's hostility to slavery, which was sufficiently decided and emphatic before. But it reveals to him the multiplied alliances and intricacies of the system; the impossibility of removing or readjusting it without great wisdom and kindness; and the real benevolence of many of the slaveholders, who are ready as Christians and as patriots to do what they ought to do, as soon as they can ascertain what it is.—It also opens to the English reader, by means of intimations and statements in the latter part of the work, some new light in another direction. The allusions to the Liberian Republic disclose very clearly the tendencies and anticipations, which exist at the present time in the mind of the talented and benevolent authoress. And they are not only understood, but they have their effect here. The inquiry arises in thinking minds, are there not some designs of Providence, connected with the history of the African race in America, which have been as yet imperfectly appreciated among us? Is it not possible, that the Supreme Being, in permitting this race to be carried to America, has done it with the design of giving them a knowledge of the English language, of modern arts and civilization, of free political institutions, and especially of the Christian religion—in order that in due time and under the providence of God, they may carry back the arts, and freedom and Christianity to benighted and suffering Africa? And if such is the design of Providence, may we not soon expect by consultation and proper co-operation of effort, to see Christian States and republics arising on the coast of Africa, which shall vie in all that is great and good with the Christian States of Europe and America?

If the effect of the work is to suggest such considerations, and to subdue in some degree the bitterness of feeling which unhappily has existed towards the Southern States of our Republic, we most certainly regard it as favorable. But Mrs. Stowe's is not the only American

HAS travelled himself of the medical knowledge of the tribes who composed the original inhabitants of this country, and having by upwards of twenty years experience gained a knowledge of the most perfect combination of the vegetable substances, which are the growth and natural remedy for the diseases of the climate, offers his services in all disorders. He has in his possession a great number of certificates, testifying to the powerfully beneficial and often sudden effects of his medicines. From a very large number of certificates he selects the following:

BREWER, July 8, 1848.

To whom it may concern:—This will certify that I had a very severe attack of the Rheumatism in my hip. I tried various means to cure it, but it grew worse and worse for about three months, when I applied to Dr. JOSEPH SAUKABASIN, one of the Penobscot tribe of Indians, who cured me entirely and in a very short time, and I have never been troubled with it since. And I feel it due to him and to the community to recommend him as a safe and skillful physician. BENJAMIN SNOW.

This will certify that I was afflicted for over thirty years with a scrofulous humor in my leg, and I applied to four or five physicians, and got no relief until I fell in with JOSEPH SAUKABASIN, and he gave me one bottle of medicine, and cured me so it has troubled me none since, and is healed perfectly sound. My daughter Hannah was afflicted with a Cough, and Spitting of Blood, and by taking his medicine was cured. SYLVANUS COOMBS.

Gardiner, August 15, 1842.

HOLDEN, Dec. 3, 1852.

Dr. Jos Saukabasin—Dear Sir: I feel it a duty to give you my best thanks for curing my wife of a disease of long standing—a dropsical complaint—and I believe if it had not been for your medicine she never would have been in her grave. ANDREW L. PINKHAM.

December 7th, 1852—I feel perfectly satisfied that Dr. Joseph Saucabasin has cured my boy of a fever sore, when another doctor gave him up. NATHAN DYER.

He has located himself in Brewer, above the Toll Bridge, where he may be consulted by mail or otherwise, and will be frequently in Bangor.

book which is sold in England. In many bookstores I have found works by American authors; and it was pleasant in reading advertisements and lists of publications at so great a distance from my native land, to meet very frequently the familiar and popular names of Irving, Cooper, Webster, Story, Longfellow, Allen, Bryant, Hawthorne, and others.

There are other evidences of a public sentiment increasingly favorable. The newspapers of England, which seem to me to be conducted in general with greater ability than our own, indicate the estimation in which America is held. A larger space is given in these papers to the commercial, political and local news from the American States, than is given to the events occurring in other foreign countries, unless there is something very peculiar in their situation, which is the case in France at the present time. On the whole, it seems to me very obvious, even from the limited opportunities of observation which I have already enjoyed, that England, laying aside the jealousies which might naturally be expected, opens her heart and arms to young America.

I had wished to say something of the great cities of Liverpool and Manchester, of which I have seen enough to enable me to form a tolerable opinion. I could give *impressions* at least. If I am just starting for Oxford, it is possible that I may find something of more interest to you there. Yours, &c. O.

Great Telegraphic Project.

The citizens of Maine, James Eddy, Esq., of this city, the able and efficient Superintendent of the Maine Telegraph, and Hiram Alden, Esq., of Belfast, have proposed to the United States Congress to establish Telegraphic intercourse in eighteen months between the Atlantic and Pacific States. Their proposal has been referred to a committee of Congress. They ask a grant of the enterprise a grant of land, the title to which shall not be vested in them, until they shall have completed, and put in successful operation, their said Line of Telegraph; in return for which grant, they will give to the United States Government the right, forever, to transmit, free of charge, over said Line, all official despatches and communications, giving it a preference over all others, but properly limiting the number and length thereof; and they will also stipulate, that, in the event that they, their successors, or assigns, shall, at any time after said Line is first opened for the transmission of despatches, cease to operate or keep the Line in working order, for the space of six consecutive months—unless so prevented by the enemity or depredations of some Indian tribe—the said Line, with all its implements, furniture, and fixtures, shall be forfeited to, and become the property of the United States.

As to the plan of construction of the said Line of Telegraph, it may be said that the first great objects to be attained are, to secure permanency, an exemption from the causes of interruption, and so often embarrass other Lines of Telegraph, and a ready efficiency in working directly through, between Saint Louis and San Francisco. To effect these objects it is proposed to make the line subterranean, that the materials shall be imperishable, and the insulation perfect. Hence, it will not, like Air Lines, be subject to interruptions, by reason of the accidental breaking of wires, by imperfect insulators or posts, by the influence of atmospheric electricity, by injury from the fires of the prairie, from the terrific thunder storms of the mountains, from the depredation of the Indian, from the stampede of the Buffalo, or from the wanton act of that "knows no law," which often drives the weary emigrant on the plains to the last extremity for want of fuel.

The Line will be placed at a sufficient depth below the surface of the earth, rock, or water, to secure it from injury. It will be furnished with Testing Tubes, every five miles, and with Working Stations every one hundred miles.—These stations will be supplied with comfortable dwellings for two Telegraphists or Operators, competent to work the Line, with such number of assistants as may be necessary at each station to keep the Line in working order, and for the protection of the same. Each station will also be supplied with all the necessary telegraph instruments and batteries to insure the constant thorough working of the Line. In consequence of the difference of longitude between the termini, and the consequent difference of time, it is proposed to work by night as well as by day. It is, moreover, proposed—where good water and fertile land so invite—to supply each of these Working Stations with all the necessary stock, seeds, and agricultural implements, to enable the residents to cultivate a farm; thus colonizing the country on the Line of Telegraph, establishing places of rest and refreshing for the traveller and the emigrant, and forming nuclei for settlements, which may ultimately be of value in the construction of that great Line of Railway, so soon to span the Sierra Nevada and Rocky Mountains.

☞ The Ellsworth Herald will find itself in error as to there having been any "trading" at Augusta which has caused any movements adverse in the political line. Both sections of the divided democracy have sided in the action there, at one step one side and at another step the opposite side, until the whigs have the majority of the Senate and a Governor. The Herald seemed to take it so hard that its party had lost anything, that it at once denounced trading. There was no trade in the matter.—The whigs bought nothing and paid nothing, and even on the voting for Governor three whigs, Messrs Lowell of Cumberland, Vinton and Muzzy voted for Gov. Hubbard, in obedience to the Maine Law issue, while two democratic Senators from Oxford, who had been opposed, after their nomination, by the friends of Gov. Hubbard, and who were bound to return the coin with interest, did so by voting for Mr. Crosby, and thus securing his election.

All the political movements at Augusta have been so transparent and so easily understood that a special effort must have been made to make them appear as the result of any bargain between any parties.

☞ A boy from this city, by the name of Dwyer, returned a while since from California, where he had accumulated, between himself and his brother, twenty thousand dollars. He is now about twenty years of age, and paid over to his father twenty-six hundred dollars as his share.

☞ The Hospital Fair, at Faneuil Hall, which was to close on Saturday evening last, has been postponed to this evening, in consequence of the Penobscot and Kennebec Railroad between this city and Waterville, having been abandoned. We do not know who can be so abandoned as to give circulation to such a rumor. So far from the road being abandoned the Directors have now in their employ several efficient men in the business of procuring subscriptions to the stock. The editor of the *Press* must himself have seen a statement recently, in our paper, of success in getting stock taken in Boston, and of further efforts to be made in that city. The road is not abandoned nor will it be, neither will the road be commenced until at least five hundred thousand dollars of the stock are taken. This sum will probably be reached in a short time, when the work will go on. In order that the construction of the road may be hastened there should be a generous movement on the part of our citizens and of all interested in the work, in taking up the stock, and in affording every possible facility to those interested in the work.

☞ A friend who has recently returned from a visit to Newburyport, has handed us for examination, as a rarity, several copies of the "Impartial Herald," published in Newburyport in 1796, semi-weekly, by Blunt & March, and afterward by Angier March. It is about half the size of our Daily paper, and has quite an old fashioned appearance in several ways, and among others that of displaying the names of the various kinds of intoxicating liquors. These old papers go beyond our day and memory, but we find the names here of those we have known as among the old men of that town. Our fellow-citizen John Short, Esq., was once the proud Carrier Boy of the Herald, in its early years.

☞ The late Mark H. Newman, Esq., book seller of New York city, left by his will $25,000 to the American Home Missionary Society, to be invested by his executor, and the interest, so much as needed, applied to the support of his children, until the youngest becomes of age—the whole to be then paid to the Society. After specific legacies to the children and other family friends, he gave also ten thousand dollars to the American Board of Commissioners for Foreign Missions, and then made the American Home Missionary Society his residuary legatee.

☞ The Washington correspondent of the New York Express, states that the "Democracy" at Washington, continue to experience a great deal of difficulty in the arrangement of their Cabinet. Mr. Hunter ultra Southern, declines, it is said, to have anything to do with an ultra Northern Democrat in the Cabinet,—such as Gen. Pierce, proposes, and, therefore, it is now doubtful, whether he will accept the post tendered him. It is not true that he has positively declined; but he will not consent to go in with Gen. Dix, or any other man of that school.

☞ The lack of small change is working admirably in the great cities by causing the people there to buy supplies for their families not by the ounce and expense worth, but by the pound and the dollar's worth, by which time and shoe leather are saved and the cost of living reduced somewhat, and many little annoyances obviated. This is a great reform, for such is the custom in the large cities that most families run to the shops for everything, and purchase by the penny worth. The lack of change has imposed a necessity upon them which will be advantageous.

☞ The New York Independent says that the Pews in the Church of which Rev. Henry Ward Beecher is pastor, were rented for the year at auction on Tuesday evening last. There was more demand than ever before. The total amount rented the first night was $8300; premiums $860, or nearly double the amount of last year. There are 125 more pews to be rented; and, if taken, the total rents of the house will be between $12,000 and $13,000.

☞ Dr. H. K. Root, the author of the People's Medical Lighthouse, from New York, arrived at the Bangor House last evening. He does not propose to remain longer than this week, and consequently invalids in the city, who wish to consult him, had better call early, as his rooms will be less crowded, than during the latter part of the week.

☞ The Eastern Argus says in reference to the election of Governor, "The State, as such, need feel no shame that Wm. G. Crosby is her Governor."

☞ By the demise of the father, Charles G. Atherton, of New Hampshire, will come into possession of a fortune of about $200,000. So say the Boston papers.

CALIFORNIA BUSINESS.—We take an extract from the Shipping Report of the Boston Daily Atlas, of Jan. 1st, showing the great success of Messrs. Glidden & Williams in despatching vessels the last year. They have already loaded two fine, new ships, since the 1st instant, and, as their advertisement in our columns shows, are prepared to sustain their previous reputation.

☞ The following fleet of thirty-four vessels were loaded by Messrs. Glidden & Williams, for San Francisco, during the past year, and what speaks highly for their promptness in the fact, that not one of them had to wait a single day for freight, after the time specified in their several advertisements; and the ships, too, have been remarkably fortunate in their passages. The Staffordshire made the shortest passage this year.

WASHINGTON, Jan. 16.

We understand in view of the situation of foreign affairs that the Military and Naval Committees of the Senate have under consideration several propositions for increasing the efficiency of the army and navy, and will probably recommend the thorough fortification of the Pacific coast, and report some measures for the employment of the commercial steam marine, should the contingency contemplated by Messrs Soulé and Marshall's ten million proposition require it.

The Astonishing success of Dr. H. K. Root, is as gratifying to the public generally, as it must be flattering to that gentleman personally. Were it not that the doctor's success is founded on the highest reaches of science, the widest range of philosophy and observation, and the teachings and conclusions of an immense practice, it would indeed be a mystery. But it is none to those who analyze his course. He goes to the very depths of disease on the one hand, and to the outermost bounds of nature on the other; first to ascertain what and where the disease is, and then apply the fit remedy. We advise all who are in any manner diseased, and who desire to have the best of advice, to call upon Dr. Root.—Hartford Weekly Gazette.

LEGISLATURE OF MAINE.

AUGUSTA, January 11.

Senate—Mr. Vinton announced the presence of Mr. Lowell, Senator elect from the Cumberland district; and that Senator was charged with the duty of conducting Mr. L. to the Council Chamber to be qualified.

Mr Lowell, after being qualified, appeared and took his seat.

A message was received from the House notifying the Senate that the House has, from the four persons having the highest number of votes for Governor, made choice of John Hubbard and Wm. G. Crosby, to be sent to the Senate, of whom the Senate is to make choice of one to be declared Governor.

On motion of Mr Stark,

Ordered, That a quarter before 11 o'clock, this day, be assigned for election by ballot, of Governor of the State of Maine, for the current political year.

At a quarter before 11 o'clock, on motion of Mr Eaton, a committee, consisting of Messrs. Eaton, Walker and Dingley, were appointed to receive, sort, and count the votes for a person to be declared Governor of the State. Having attended to that duty, the committee reported as follows:

Whole number of votes,	31
Necessary to a choice,	16
William G. Crosby had	17
John Hubbard,	14

The report was accepted, and Wm. G. Crosby declared duly and constitutionally elected Governor of the State of Maine, for the current political year.

On motion of Mr Farewell, a committee, consisting of Messrs Farewell, Walker, and Dingley, (with such as the House may join) was appointed to notify Wm. G. Crosby of his election as Governor.

Mr Cary called up the order yesterday laid on the table relative to the pay of Messrs Murch and Carlton, from Waldo.

After some debate, in which Messrs. Cary, Stark and Clarke of Lincoln, participated, on motion of the latter Senator the order was indefinitely postponed.

Mr. Cary said he proposed to raise a question of order, touching the right of the present presiding officer to retain his seat, now that the Senate was full, in view of the fact that he had not received the suffrages of the majority of the Senate. He offered no order, declaring that, inasmuch as the Senate had elected a President and Secretary by a vote less than a majority of a full Senate, those offices are vacant.

Mr C., said he intended to cast no reflection either upon the Senator now filling the chair or the majority at this board. His only object was to settle the question involved, according to the clear principles of parliamentary law. He was committed to this course by his previous position, and although the Senate might confirm the existing presiding officer in his seat, he nevertheless desired a direct vote on the question. Mr C., read from Cushing's Manual, showing that an election of those officers effected by less than a majority might be set aside, and a new election had. He wanted the question settled, and if settled adversely, he wanted it to stand forth as a whig precedent, not sanctioned by the acquiescence of democrats.

Mr Stark contended that the passage read from Cushing's Manual did not touch the present case. He maintained that there was an inconsistency between the position now assumed by the Senator from Aroostook and that occupied by him the other day, when it was insisted that a majority of 22 was sufficient to elect a President. In conclusion, Mr S. moved the yeas and nays, and they were ordered.

The President stated that he had no desire to occupy the chair if he was not constitutionally elected; and in respect to the pending question he should not vote upon it at all.

The question on the adoption of the order was then taken and decided in the negative, by yeas and nays, as follows—yeas 16—all whigs—nays 8 all democrats.

On motion of Mr West, the Senate then adjourned.

House—Without doing any business the House adjourned.

CONGRESS.

WASHINGTON, Jan. 14.

IN THE SENATE.

The Chair presented the credentials of John M. Clayton, Senator elect from Delaware for 6 years from the 4th of March next.

Mr. Jones of Iowa, offered a resolution calling for the sword of Emperor Louis Napoleon, in the case of the brig Armstrong, referred to him for decision by the United States and Portugal. Adopted.

On motion of Mr. Mallory, the joint resolution authorizing the President to incorporate the officers of the Texas navy in the Navy of the United States, was taken up, and after a short debate was postponed.

Several private bills were passed.

A motion ordering an adjournment till Monday was agreed to, and the Senate went into Executive session.

A debate on Mr. Badger's nomination was abruptly interrupted by the announcement of the death of Mr Upham. The doors were opened and the motion to adjourn till Monday was reconsidered, when the Senate adjourned.

IN THE HOUSE.

The bill to prevent frauds on the treasury, reported yesterday, was passed, yeas 124, nays 23.

Mr. Marshall asked leave to introduce the following resolution:—

Resolved, That a sum of $10,000,000 be set apart out of any funds in the Treasury not otherwise appropriated, and be placed at the disposal of the President, for the purpose of enabling him during the recess of Congress, to meet any exigencies which may arise out of the momentous subjects connected with the present foreign relations of the country, and the other powers of the Executive, in the exercise of their character and responsibility, as gathered from his public acts, and requiring immediate consideration. Objected to.

The Bill then came up in the order of business, and was passed.

The Bill for the suppression of gambling-houses in the District of Columbia.

Mr. Dean wished to have the bill recommitted, with instructions to report one authorizing free banking.

A discussion ensued. Without coming to any conclusion the committee rose, and the House adjourned.

Mercantile Association Lecture.

THE next lecture of the season will be delivered on Thursday Evening, Jan. 19, at CITY HALL, at half past seven, by the Rev. E. H. CHEEVER, of New York.

Doors to the Gallery will be open at 6 o'clock—doors below, one hour later.

"DIGEST!" Such is the true meaning of the word "PEPSIN," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. R. HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach! No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH. See the figure of the Ox, in another part of this paper.

A CARD.

MRS. WINSLOW TO THE LADIES.

Mrs Winslow, an old and experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for Children teething. It will immediately relieve them from pain, allay all spasmodic action, soften the gums, reduce inflammation, and is sure to regulate the Bowels. Depend upon it Mothers, it will give rest to yourselves and relief and health to your children.

Price 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup during the past six years, several thousands the last year. We believe it the best medicine in the world for Children teething or for the cure of Dysentery and Diarrhœa in Children whether it arises from teething or any other cause. It gives universal satisfaction—never heard a complaint from any one using it—never sold a medicine so universally successful in relieving pain and affecting cures—relief is absolutely sure.

CURTIS & PERKINS,
Druggists, Bangor, Me.

Sold by Agents in nearly every town in the State.

Thousands have been cured, why may not you by the

Cramp and Pain Killer.

The world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by CURTIS & PERKINS. An equal has never been known for removing pain in all cases; for the cure of spinal complaints, cramp in the limbs and stomach, rheumatism in all its forms, bilious cholic, burns, sore throat, and gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine are on circulars in the hands of Agents—; you may be *positively sure* of relief if you use it.

N. B.—Be sure and call for CURTIS & PERKINS' Cramp and Pain Killer. All others bearing this name are base imitations, and will deceive and injure the patient.—Price 12½, 25, 37½ cts per bottle, according to size. Sold by Agents in nearly every town in the State.

April 12, 1852 3tawp&wlv

IT IS AN ERRONEOUS IDEA that diseases cannot be cured except by taking large quantities of medicines into the stomach, as a great many cases of which much injury is done, although the *diseased* in part be *actually cured*. The coats of the stomach, by continued use of nauseating mixtures, frequently become so much disordered that the *digestive function is seriously injured*—the result of which is dyspepsia, nervousness, cholics, alternate diarrhœa and costiveness, flatulence, nightmare, etc., etc. Would it not, therefore, be very desirable to possess a remedy, which being applied *externally* would excite the absorbents to increased action and thus carry off through the medium the deleterious principle which is the *direct cause* of the disease? Surely every thinking man will admit that this would not only be the most *pleasant*, but by far the safest means to effect the desired end. The almost superhuman cures performed by the Arabian physicians in the days of old were mainly effected by this course of treatment, and the ingredients of which the H. G. FARRELL'S CELEBRATED ARABIAN LINIMENT is composed, are extracted from rare plants peculiar to Arabia. This great Liniment (which is now to be had of most respectable druggists and merchants in every town in the United States,) is daily effecting cures, which seemed beyond the power of medicine to control—consumption, bronchitis and liver complaints in their first stages, nervous affections, indigestion, enlargement of the spleen, scrofulous tumors, goitre, etc., etc., are frequently cured, and *always* relieved by its use. It is unsurpassed as an anodyne,—relieving severe pains in a few minutes after its application, soothe the irritated nerves, and produces that delightful tranquility so grateful to the nervous invalid. Sprains, bruises, wounds, burns, sore throat, chilblains, rheumatism, sun pain, etc., etc., are speedily cured by it, and for nearly all ailments in horses or cattle, requiring an external application, it is an effectual remedy.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, 77 Lake street, Chicago, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by E. F. Kinsell, Oldtown. French & Hamilton, Dexter. Geo. Fletcher, Ellsworth. P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell, as above, accompanied with good reference as to character, responsibility, &c.

The Mustang Liniment

POSSESSES the properties of penetrating and permeating all organic or porous substances, and also of dissolving them when their vitality is destroyed, opens the capillary tubes, softens the tendons and ligaments, stimulates the absorbents and secretories, allays irritation and inflammation, reduces swellings, discusses tumors and heals ulcers, cancers, or secret sores and wounds. In chronic rheumatism it is almost a specific. The sales of over four millions of bottles, and the testimony of tens of thousands of persons who have been cured by it, are sufficient evidences of the truth of the great value of this preparation. Every person, therefore, should give it a fair trial before pronouncing judgment upon it. This is all that is asked. Try it! try it!

The above is for sale, wholesale and retail by

Valuable Real Estate
FOR SALE.

I will sell the Tavern Stand known as the *Kenduskeag House*, a three story brick building, besides basement, situate on the corner of Main and Water streets, in this city; and also a new brick block, of five stories, adjoining on Main street, with all the grounds belonging to both buildings. The first story of the last mentioned embraces two stores, now profitably occupied for the sale of provisions and groceries, the other stories having sixteen finished rooms for dwellings—the whole premises measuring on Main street about 84 feet and on Water street 107 feet. These buildings within the last year have been put in good repair, the stores having granite fronts, and a new sidewalk of bricks has been laid down 90 feet on Main street. This is believed to be the largest and most valuable property now for sale in Bangor, and offers a rare opportunity for investment or speculation. The rear grounds extend nearly on the public square recently opened for a market, &c. For terms, and further particulars, apply to

The BANGOR HOUSE,

Scrofulous Affections of the worst forms are Curable.

E. T. Barron, of Concord, N. H., and many others, whose certificates are in the hands of the

Celebrated Blood Physician,

and witnesses to this fact.

H. K. ROOT, A. M., M. D., the celebrated Consumption and Blood Doctor, author of the "People's Medical Lighthouse," and inventor of the Anti-Consumption and Lung Barometer, office 517 Broadway, New York, invites the attention of the sick and ill-fated, laboring under any of the various characters of forms of disease such as Coughs, Ulcerated or Tuberculous Lungs, Spitting of Blood, Pain in the Chest, Shoulders, Side or Back, Bleeding Lungs, Chronic Catarrh, Night Sweats, Nervous Complaints, Palpitation, Ossification or Dropsy of the Heart, Dyspepsia, Liver Complaint, Chronic Diarrhœa, Incidental Weaknesses peculiar to females, Cancers, Tumors, Scrofulous Affections, Deafness, Insanity, Fits, Paralysis, Spinal Deformities, Gravel, Fistula, Costiveness, and all Cutaneous Eruptions and Poisonous Inoculation, and Humors of the Blood, etc.

The Doctor is the only man on the Globe that can accurately ascertain the nature of and cure of Consumption. He can ascertain the amount of air exhaled, and the amount of air necessary to inhale, the weakness or strength of the lungs, and whether diseased or not. He can ascertain to a certainty the different kinds of Consumption, and whether the disease is Catarrhal, Lung, Liver, Blood, Kidneys, Womb, or any other kind of Consumption, and treat such kind knowingly, which all other physicians disagree about, by sounding the chest with deaf ears hollow sticks, straws, etc.—He advises in the treatment of pulmonary consumption and uses of the lungs, cannot be equalled by any man of any age. No lady or gentleman should neglect to have an examination of their lungs with the Barometer as advised, can then be given correct and certain, which will add years to their lives. He does not make sick to make well nor tear down to build up again, but from his great skill in doctoring the blood he effects his great cures.

The Language of Scripture on Blood

"The LIFE of the flesh is THE BLOOD thereof"—Gen. ix, 4.

"For the BLOOD is the LIFE"—Deuteronomy xii, 23.

"For the LIFE of the flesh is the BLOOD"—Leviticus xvii, 11.

"For the life of all flesh is the blood thereof"—Leviticus xvii, 14.

King David was the Seventh Son—1 Chron. ii, 15—Gods and every Herb and Tree bearing seed, shall be for meat—Gen. i, 29. David said purge me with Hyssop and I shall be clean—Psalms li, 7. Paul said, the weak eateth herbs—Rom. xiv, 2. St John said, the leaves of the Tree were for the healing of the nations—Rev. xxii, 2.

Christ's life was taken by the shedding of his blood.

Blood has a voice to pierce the skies,
Revenge, the blood of Abel cries,
But the dear stream, when Christ was slain,
Speaks peace as loud, from every vein.—*Watts*

Little truth and human reason teaches us that the blood is the source of life. We know that there is not a fibre in the system of which blood is not the material, and it follows of course that upon the state of this man rial the state of every organ is dependant. "A corrupt tree," says the inspired volume, "brings not forth good fruit," and for the same reason corrupt blood cannot create healthy flesh. In view of this great, yet simple fact, and with the certainty of

Cleansing the Polluted Stream,

Dr. H. K. Root offers his medicines to the public. They are composed of widely different ingredient, suited to the various diseases they are designed to cure—for nature furnishes no *one cure-all* applicable to every malady. They are, however, all designed to subdue disease at its fountain head, the blood, and thus to accomplish

A Radical Cure.

Remember, "the blood is the life," that through the infectant poison of the blood the seeds of fever, pain and death are conveyed to all parts of the body, that no medicine which does not

Renovate the Blood

can dispel disease; and that this great object can always be attained by using the remedies and following the advice of Dr. H. K. ROOT.

The Great American Herbist.

Ye who have suffered long, and spent your substance in employing physicians to administer to you quack minerals and mercurial poisons, that have done you no good, but rather hurt; make one more effort at recovery. Try the medicines of the celebrated Dr. Root, and the day of redemption will come; the joyous light of health will once more shine upon your path, the rose will return to your faded cheek; the fire to your listless eyes, and strength to your powerless muscles.

Patent Medicines Deceive.

Put no faith in one medicine as a cure-all. As well might a lock-smith make a key to fit all kinds of locks, or the druggist compound all his medicines in one, and use it for all complaints, as you might as well expect to live on one article of diet.

A Word to the Wise is Sufficient.

Professional Advice *Free*, except an examination of the Lungs with the Barometer, which will be $1,00.

The sick wishing to avail themselves of superior skill in the healing art, are invited to call on him, at the Bangor House.

Important to the Sick!

R. RICHARD CLAY, M. D.,

THE most successful practitioner in Maine, for ...in the United States, in the treatment of diseases of the Lungs, Asthma, and all kinds of Pulmonary and Female Complaints, will be in attendance at

Hatch House, Bangor, Tuesday, Wednesday, Thursday and Friday, Jan. 25, 26, 27 and 28.

Pearson's Hotel, Oldtown, Saturday, Jan. 29.

Hotel, Orono, Sunday, Jan. 30.

☞ Ladies and gentlemen are respectfully invited to call. Patients visited at their residence.

Consultations Free.

The superiority of Dr. Clay's system of practice over all, and every other system, in the treatment of diseases of the Lungs, Liver, Kidneys, Spleen, Nervous System, Dyspepsia, Bronchitis, Piles, Erysipelas, Scrofula, Spinal Diseases, Diseases of the Skin, Prolapsus Uteri, Fluor Albus, and all that formidable list of diversified suffering, which comes under the general head of

Female Weaknesses,

warrants him in soliciting for treatment cases that have been pronounced incurable by other physicians.

☞ Dr Clay's medicines are purely vegetable. He uses no mercury, or other poisons, in any case whatever, as they injure the fine coats of the secreting membranes of the viscera, and unfit them for fulfilling the functions necessary to keep up a healthy balance of action.

The extensive acquaintance of Dr Clay with Anatomy, Physiology, and Pathology, enables him to determine the nature, extent and precise location of disease, describe the symptoms of the patient, tell them how they have been, how they are and how they will be with a facility that will inspire the most incredulous with confidence, wonder, and admiration.

Consumption can be cured.

The consumptive reader is respectfully invited to call and hear Dr. Clay's opinion, respecting the curability of Pulmonary Consumption. His method of treating diseases of the Lungs is peculiar to himself, and very similar to that adopted by Theophilus Thompson, M. D., F. R. S., Physician to the Hospital for Consumption and diseases of the Chest, in England. Early attention is safety; delay is peril.

DOCT. CLAY

Will be at Dixmont Cor. Jan 10 and 11; Carmean 12, Hartland 13, Palmyra 14, Detroit 15, Newport 16, Stetson 17, Exeter Cor 18, Dexter 19 and 20, Dover 21 and 22, East Cor 24 23, Levant 24.

At 62 1-2 cts. per Bushel, or Gallon.

New Oyster House.

This day received a cargo of Oysters.

THE subscribers having taken the building on FEDERAL STREET, east of the Elm House, would inform the public that they intend to carry on the OYSTER BUSINESS in all its branches. Having engaged a line of Clipper Schooners, with experienced masters, we purchase our Oysters at the best beds in Virginia and Maryland, by so doing we can sell as low as any Oyster establishment in New England.

☞ Dealers in Oysters in the cities and towns east of Portland, who have before purchased in Boston, will find it to their advantage to be supplied from Portland, for we are ready to supply Oysters in any quantity, at the shortest notice.

and will land passengers on the wharf at Aspinwall (Navy Bay, where they will take the Panama Railroad to Gorgona, and from thence by mules, or on foot, to Panama) at which place the above splendid Steamers will be in readiness to receive them, and proceed immediately to San Francisco, stopping only at Acapulco for supplies of fresh provisions and fuel. The whole expense between Navy Bay and Panama will be between $35 and $50, dependant upon whether passengers walk or ride from Gorgona and weight of baggage. These Steamships were built in New York, within a year, and are expressly adapted for the trade, have large and comfortable accommodations, are furnished in a superior manner, and commanded by men of long experience. The fare is inclusive, and steerage passengers are provided with hair mattress and bedding. Each steamer carries an experienced Physician.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of 37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *which by a Patent may be procured about six weeks earlier* he continues to forward them free of expense—to prepare Caveats Specifications Assignements, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters in general of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen* years in practice, an extensive collection of rare works decisions &c on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment

R H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE, Late Commissioner of Patents

THE GREAT REMEDY FOR

Coughs, Colds and Consumptions.

The *VEGETABLE PULMONARY BALSAM* is probably without a parallel in having during a period of more than *Twenty-five years* fully maintained the high reputation which it has acquired for CONSUMPTIVE COMPLAINTS, and all DISEASES of the LUNGS, THROAT, and CHEST. It has been recommended with probably greater success than any other article known and Physicians who have had an opportunity of witnessing its highly salutary effects, recommend it as a safe and very efficacious medicine, equal if not superior, to any other prescription for the above complaints within their knowledge. The basis of this Medicine was a private recipe of a distinguished Physician in one of the neighboring States, and was preserved by his family as the medium to whom it gave the most astonishing relief. It is composed of vegetables, and if used according to direct ons, must be perfectly safe.

From Messrs Allen & Co., Merchants, Cincinnati.—"Some persons who have used the Vegetable Pulmonary Balsam, uniformly speak of it as a valuable medicine, and from the quantity sold, notwithstanding the number of other preparations prepared for similar complaints, we consider it first on the list.

Respectfully, &c, ALLEN & CO"

The Editor of the *Seneca Falls Courier* says:—"We have had occasion to witness the good effect of the Vegetable Pulmonary Balsam in our family in case of a young lady who has been our reputed cured of Consumption by the use of it, and also in several cases of Colds, and cheerfully bear testimony to its being a safe, convenient and very efficacious medicine in cases of that description."—Ed Courier

A Clergyman from Philadelphia writes that he has been in the habit of using the Vegetable Pulmonary Balsam for himself and family, for the last thirteen years, and has often recommended it to his friends, and considers it an invaluable remedy for all pulmonary complaints.

"For the last five years of my practice I have had the satisfaction to witness the beneficial effects of Vegetable Pulmonary Balsam in many cases of obstinate cough and other affections of the lungs I would therefore confidently recommend its use in all complaints of the chest, as being equal, if not superior, to any other medicine within my knowledge.

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world It is entirely of vegetable extract perfectly safe to be administered even to the most delicate child, and strike astonishing and satisfactory in its effects upon man or beast To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs Colds, Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood and all Long Complaints, Chronic Diarrhœa and Dysentery in all of which cases it should be used internally The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains Chapped Hands, Bruises, Burns, and all descriptions of wounds, are magical Persons troubled with Cramp in the Stomach Side or Bowels, Sore Throat Piles &c, by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure The proprietor can produce volumes of testimonials in its favor, but prefers to let it carry its own recommendations as it has done for forty years past We ask no man to use it after an unsatisfactory trial In its composition it unites several of the most penetrating and healing specifics known to the materia medica—The inventor of this article was in the constant and successful practice of medicine for more than twenty years

This is to certify that having been troubled for a number of years with a disease in the colon, and bleeding at the lungs, and receiving no benefit from medical aid, in 1848 I was in all appearance in the last stage of consumption. My legs swelled so that I was unable to stand or help myself At that time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured, and have since been able to labor every day I have also for the past twenty years been subject to severe attacks of bloody dysentery, and never found any permanent relief until I took your Liniment, since which I have had no return of this complaint I can truly say I think your Anodyne Liniment was the means of saving my life. JOHN J ATKINS.

Brewer, Sept. 28, 1852.

Dr Johnson Dear Sir—In consequence of having a fever sore on my leg, it become totally stiff at the knee, and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment, and by using three bottles, my leg was limbered and strengthened, and for a number of years I have been able to use it about as well as the other I consider myself indebted to the use of your Liniment, through the blessing of Providence, for the use of my leg, and would say to others who may need help in this way, try it, and no doubt you will be cured HUFUS CHAPMAN

DR. MORSE'S INVIGORATING CORDIAL

FOR GENITAL DEBILITY, IMPOTENCY IN CONTINANCE OR NOCTURNAL EMISSIONS, &c The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude, and General Prostration*, as any of the consequences of youthful indiscretion or indulgence of the passions in riper years, renders it the most valuable preparation ever discovered In fact as a remedy for the above complaints it stands unrivalled and for me. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe as well as by eminent Physicians in this country It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found the only agent that can administer to MIND DISEASES. It will remove all nervous affections DEPRESSION EXCITEMENT, incapacity to study or business loss of MEMORY CONFUSION in ideas of Self Destruction, fear of insanity, &c. It will restore the appetite renew the health of those who have destroyed it by Sensual Excesses, or evil practices, it has been said by some that these disorders, emissions, &c. were incurable This however is not the fact

DR. MORSE'S INVIGORATING CORDIAL has and is constantly curing these complaints relieving the mental and bodily incapacity of the afflicted sufferer, as the following testimony of the names received will satisfactorily show

Dr Woodward of the Massachusetts Lunatic Hospital writes of one of his patients being cured by using this cordial thus:—It gives me pleasure to inform you that one of my patients, while in Boston procured some of your Cordial. He tells me that he found it had a similar effect since he commenced taking it which he before had two or three A week When he applied to me, says Dr. W. I thought it hardly possible for him ever to regain his full strength I prescribed the usual medicine used in these cases in the hospital but they had no effect In the meantime he purchased some of your Cordial which has effected a cure I am sure no other medicine would I shall ever recommend it whenever an opportunity occurs

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of course out of the question and the proprietor would produce a host of the most conclusive testimonies to show that the great reputation it enjoys was not accidentally obtained but is firmly based upon its positive and apparently miraculous virtues In all directions he to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

have not in a single instance that has been authentical yet, given their sanction to any other preparation for the above complaints It has, in many virulent and desperate cases, effected radical cures after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

Of those who have used this Extract is—"I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsaparillas) without derriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since although it is not three weeks. I am satisfied the half a dozen bottles I took will cure me."

Another says—"I had consulted several distinguished physicians. Some said I could not be cured, others prescribed this thing and that, but I found no relief until I procured some of your Cordial. I must say it completely cured me."

Another says—"I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION—Ask for Dr Morse's Cordial and take no other, as there are worthless imitations which from its rivalled excellence, fame and popularity, have brought into the market. It will not hurt the most delicate Female but do good. Beware of all other Cordials, &c., (and try only this)

Notice. Persons conscious of physical inability from causes above named may confidentially consult Dr Morse personally or by letter, (post paid) at his office 78 Sudbury street, Boston The necessary advice and medicine for the speedy removal of such disability will be safely forwarded to the writer's address.

Dr M is prepared to warrant a perfect cure in every case or take no pay

Prepared by M. Morse M D., New York city

It is put up in pint bottles, with the words Dr Morse's Vigorating Cordial, blown on the glass. Price $2 per bottle: 2 bottles $5, 6 bottles $10, and $24 per dozen.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION

Copy of a Letter from Mr R W Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway

SIR—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years A customer to whom I can refer for any enquiries, desires me to let you know the respectable of her case She had been troubled for years with a disordered liver, and bad digestion On the last occasion however the virulence of the attack was so alarming and the inflammation set in so severely that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first and each succeeding dose, she had great relief She continued to take them and although she used only three Boxes, she is now in the enjoyment of perfect health I could have sent you many more cases but the above from the severity of the attack and the speedy cure I think, speaks much in favor of your astonishing Pills.

BRANT'S INDIAN PULMONARY BALSAM,

The Great COUGH REMEDY.

Many years of experience, and more than a Hundred Thousand Cures of Consumptive Complaints, have proved to the undoubted satisfaction of all persons who have become acquainted with this *wonderful remedy*, that it is greatly superior, because it is *nothing* and *nothing* and more certain to cure Consumption than any other Remedy in the world We know, however, that it is said by some that Consumption can not be cured. He that the opinion of the many of the flower we shall not attempt to argue with such, but this we will say and do assert as a fact, which can be proved in thousands of cases, that this medicine has cured *Colds and Coughs* which *before* the cures were effected, were called real *Consumption*, and which were attended with *symptoms* that resembled and were in all *respects like* the symptoms of those *who die* and *when dead* are said to have *died* with that fatal disease Consumption. This Balsam has cured *thousands* of persons who were said to be hopelessly afflicted—who had *hard, dry, racking Coughs—Pains in the Breast, Side, and Back—Difficulty of Breathing—Purulent Expectoration—Hectic Fever—Night-Sweats*—and wasting away of the Flesh and Blood. Persons having such complaints have been cured after it was said they *could not live a week longer* This Medicine has cured some who were supposed to be in a *dying state*, but, by the use of this remedy they now live, and enjoy good health

This Balsam is *purely a vegetable compound*. It is pleasant to take and *never does injury* in any stage of disease or under any circumstances. It effects in wonderful and *almost miraculous* Cures in *Pain in the Side, Strengthening* and *Invigorating* the whole system—by *equalizing the circulation* and producing a *healthy action*—thus *allaying* Cough—*soothing the Nerves*—and *aiding and facilitating* Expectoration. It Cures the following diseases viz—

Consumption,

COUGHS and *Colds, Bronchitis, Asthma, Spitting of Blood, Bleeding at the Lungs Pains in the Breast, Side, and Chest Nervousness, Night Sweats, Palpitation of the Heart*, and all FEMALE WEAKNESSES and *Complaints* arising therefrom, Cholera Infantum, &c.

HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS AFTER 33 YEARS SUFFERING

Extract of a Letter from Mr William Galpin, of 79 St Mary's Street, Weymouth, dated May 15th 1851

To Professor Holloway,

SIR—At the age of 18 my wife (who is now 61) caught a violent cold which settled in her legs and ever since that time they have been more or less sore and greatly inflamed Her agonies were distracting and for months together she was deprived entirely of rest and sleep Every remedy that medical men advised was tried but without effect, her health suffered severely and the state of her legs was terrible I had often read your advertisements and advised her to try your Pills and Ointment and as a last resource after every other remedy had proved useless she consented to do so She commenced six weeks ago and strange to relate is now in good health Her legs are painless without scam or scar, and her sleep sound and undisturbed Could you have witnessed the sufferings of my wife during the last 33 years, and contrast them with her present enjoyment of health you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature

(Signed) WILLIAM GALPIN

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING

Copy of a Letter from Mr Wm Abin, Builder of Gos Ovens of Rushcliffe, near Huddersfield, dated May 31 1851

To Professor Holloway

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents as Gas Works, accompanied by scor
